	! <i>FINCA has the right to unilaterally change the interest rate of the loan in case the borrower breaches the obligations set forth in the agreement, by the manner and cases prescribed by the agreement,</i>
	! <i>The loan interest rate clause can be subjected to change by "+5" percentage point, but not more than twice as much as the calculated bank interest rate set by the Central Bank of Armenia,</i>
	! <i>The borrower must be notified about the amendments no later than 7 (seven) working days prior to the entry into force of that amendment,</i>
	! <i>Your property (house, car, etc.) can be confiscated in the manner prescribed by law, if you do not make interest and loan repayments in time,</i>
	! <i>If you do not make interest and loan repayments on time, your information will be recorded in the Credit Registry,</i>
	! <i>In case of default on the collateral, the obligations will be repaid at the expense of your other property if the collateral is insufficient to cover your loan obligations</i>

Calculation of Annual Percentage Rate

Loan interest is calculated based on the nominal interest rate. Whereas, the annual percentage rate shows the cost of the loan, if the interests and other fees are paid according to the repayment schedule. The Annual Percentage Rate depends on the loan terms (loan amount, maturity, amount of installments and number of installments).

Annual Percentage Rates shall be calculated based on the following formula:

$$A = \sum_{n=1}^N \frac{K_n}{(1 + i)^{\frac{D_n}{365}}}$$

where:

A credit sum (initial size of credit provided to consumer by creditor).

n number of the repayment directed to credit coverage

N number of the last repayment directed to credit coverage

Kn amount of the n repayment directed to credit coverage

Dn time span between the day of credit extension and the day of making the n repayment directed to credit coverage, expressed by number of days

i Annual Percentage Rate (APR), which can be calculated if the other data of the formula are known from loan agreement or any other way

Example of Calculating Annual Percentage Rate

Loan amount	AMD 250,000
Annual Interest Rate	14.9%
Loan Maturity	18 months
Loan Disbursement Fee	3% of loan amount
Monthly Service Fee	1.35% of loan amount
Loan Repayment	Monthly equal repayments (the principle amount and the interest together)
Loan Disbursement Day	01 October 2019
First Repayment Date	01 November 2019
Annual Percentage Rate: 57.8 %
